INDEX TO VOLUME II

Adenoma, pituitary, unusual size and extension of, 126
Aneurysm, intracranial arterio-venous, carotid sinus syncope secondary to ligation of carotid vessels for, 287
Anthony, E. W. See Ecker, A. D., 47
Apparatus: See Instruments
Arana, R., and Asenjo, A. Ventriculographic diagnosis of cysticercosis of the posterior fossa, 181
Arnold, H. See Greene, H. S. N., 315
Arnold-Chiari deformity in adult without obvious cause, 245
Asenjo, A. See Arana, R., 181

Bailey, O. T., and Ingraham, F. D. Intracranial fibrosarcomas of the dura mater in childhood: pathological characteristics and surgical management, 1
Baisinger, C. F. See Reeves, D. L., 269
Bones
  early nerve and bone repair in war wounds, 510
  peripheral nerve injury in fractures and dislocations of long bones, 202
Bovine thrombin, antigenicity of, 516
Brain
  abscess metastatic from lung, 456
  Arnold-Chiari deformity in adult without obvious cause, 245
  carotid cerebral circulation, control of, during operation, 241
  gas gangrene, fulminating, 539
Brain injuries: See also Cranium; Head
  dural closure with pedicled graft, 384
  extensive brain wounds, 469
  functional and structural changes in monkey's brain during and after concussion, 26
  hernia cerebri, reduction of, by tantalum cranioplasty, 379
  histologic studies: post-traumatic cerebral swelling and edema, 306
  penetrating brain wounds, 365
  transventricular brain wounds, 463
Brain tumors: See Intracranial tumors
Brenner, C. See Friedman, A. P., 36
Brown, M. H., and Powell, L. D. Anterior sacral meningocele, 535
Bucy, P. C., and Lichtenstein, B. W. Arnold-Chiari deformity in an adult without obvious cause, 245
Butler, E. G., Puckett, W. O., Harvey, E. N., and McMillen, J. H. Experiments on head wounding by high velocity missiles, 358

Carmichael, F. A., Jr. The reduction of hernia cerebri by tantalum cranioplasty. A preliminary report, 379
Carotid artery, internal, spasm of, 479
Carotid cerebral circulation, control of, during operation, 241
Carotid sinus syncope secondary to ligation of carotid vessels for intracranial arterio-venous aneurysm, 287
Cerebellopontine operations, lateral position for, 460
Cerebellum, cysticercosis of posterior fossa, ventriculographic diagnosis of, 181
Cerebrospinal fluid
  reaction in pantopaque myelography, 220
  subdural hygroma, 340
Cerebrum: See Brain
Chambers, J. W. See Otenasek, F. J., 539
Coccidioidal meningitis, primary chronic, 269
Cohen, I., and Drooz, R. B. Brain abscess metastatic from the lung. Recovery following penicillin therapy and repeated aspiration, 456
Concussion, functional and structural changes in monkey's brain during and after, 26
Cramer, F. J. See Woodhall, B., 524
Cranium: See also Brain; Head
  giant cell tumor of sphenoid bone, 16
  tantalum plating of skull defects, technique of, 21
Cyst of 6th ventricle, successful removal of, 191
Cysticercosis
  of brain, 543
  of posterior fossa, ventriculographic diagnosis of, 181

Davis, E. W. See Livingston, W. K., 170
Denny-Brown, D. See Friedman, A. P., 36
Dermohmmeter, improved clinical, 257
Dermoid cyst, intracerebral, radiographic visualization of, 72
Dizziness, post-traumatic, 36
Dow, R. S., Ulett, G., and Raaf, J. Electroencephalographic studies in head injuries, 154
Drooz, R. B. See Cohen, I., 456
Dural closure with pedicled graft, in brain wounds, 384

Echols, D. H. Giant cell tumor of the sphenoid bone. Report of a case, 16
Ecker, A. D. Tight dural closure with pedicled graft in wounds of the brain, 384
  Spasm of the internal carotid artery, 479
  ——, and Anthony, E. W. Exanopic central scotoma, a pitfall in diagnosis, 47

EDDS, M. V., JR. Prevention of nerve regeneration and neuroma formation by caps of synthetic resin, 507
Electroencephalographic and electrocardiographic studies in carotid sinus syncope, 287
Electroencephalographic studies in head injuries, 154
EPSTEIN, J. A. See Tarlov, I. M., 49
EVANS, J. P., and SCHEINKER, I. M. Histologic studies of the brain following head trauma. I. Post-traumatic cerebral swelling and edema, 306

Fibrin film and clot in end-to-end union of nerves, 102
Fibromyopathies, neurogenic ossifying, 485
Fibrosarcomas, intracranial, of dura mater in childhood: pathological characteristics and surgical management, 1
FRENCH, L. A. See Ritchie, W. P., 543
FRIEDMAN, A. P., BRENNER, C., and DENNY-BROWN, D. Post-traumatic vertigo and dizziness, 36
Frontal craniotomy, new position for, 546

Gas gangrene of brain, fulminating, 539
Gelatin sponge, absorbable, for use in hemostasis, 435
Giant cell tumor of sphenoid bone, 16
GLASER, M. A. An automatic self-retaining laminectomy retractor, 285
GLASER, M. A., and SHAFER, F. P. Depressed fractures of the skull. Their surgery, sequelae and disability, 140
GREENE, H. S. N., and ARNOLD, H. The homologous and heterologous transplantation of brain and brain tumors, 315
GROAT, R. A., WINDLE, W. F., and MAGOUN, H. W. Functional and structural changes in the monkey's brain during and after concussion, 26
GROSS, S. W. Radiographic visualization of an intracerebral dermoid cyst, 72
GURDJIAN, E. S., and SMATHERS, H. M. Peripheral nerve injury in fractures and dislocations of long bones, 202

HAMBY, W. B. A method for control of carotid cerebral circulation during operation, 241
HAMLIN, H. See White, J. C., 402
HARVEY, E. N. See Butler, E. G., 358
HAYNES, W. G. Penetrating brain wounds. Analysis of 342 cases, 365
Transventricular wounds of the brain, 463
Extensive brain wounds. Analysis of 159 cases occurring in a series of 342 penetrating war wounds of the brain, 469
Head, injuries: See also Brain; Cranium
depressed fractures of skull: surgery, sequelae and disability, 140
electroencephalographic studies in, 154
experiments on head wounding by high velocity missiles, 358
infection in penetrating head wounds, 391
post-traumatic vertigo and dizziness, 36
HEMBERGER, A. J., WHITCOMB, B. B., and WOODHALL, B. The technique of tantalum plating of skull defects, 21
Hemostasis
absorbable gelatin sponge for use in, 435
in neurosurgery, 414
Hernia cerebri, reduction of, by tantalum cranioplasty, 379
High velocity missiles
"delayed recovery" in peripheral nerve lesions caused by, 170
experiments on head wounding by, 358
HOEN, T. I. A special self-retaining retractor for use in the interlaminar approach to hernias of the intervertebral disc, 459

Infection in penetrating head wounds, 391
INGRAHAM, F. D. See Bailey, O. T., 1
Instruments
improved clinical dermohmmeter, 257
peripheral nerve lesion charts, 550
self-retaining laminectomy retractor, 285, 459
Intervertebral disc, self-retaining retractor for use in approach to hernias of, 459
Intracranial tumors: See also Cranium
abscess, metastatic from lung, 456
arterio-venous aneurysm, 287
cyst of 6th ventricle, successful removal of, 191
cysticercosis of brain, 543
cysticercosis of posterior fossa, ventriculographic diagnosis of, 181
dermoid cyst, radiographic visualization of, 72
fibrosarcomas of dura mater in childhood: pathological characteristics and surgical management, 1
pituitary adenoma, unusual size and extension of, 126
subdural hygroma, 340
subependymoma, 232
transplantation of, homologous and heterologous, 315
Italy, forward neurosurgery in, 332

JASPER, H. An improved clinical dermohmmeter, 257
——, and ROBB, P. Studies of electrical skin resistance in peripheral nerve lesions, 261

Laminectomy retractor, self-retaining, 285, 459
LICHTENSTEIN, B. W. See Bucy, P. C., 245
LIGHT, R. U. Hemostasis in neurosurgery, 414
The antigenicity of bovine thrombin: clinical evaluation, 516
——, and PRENTICE, H. R. Surgical investiga-

tion of a new absorbable sponge derived from gelatin for use in hemostasis, 435
Livingston, K. E. The phantom limb syndrome. A discussion of the role of major peripheral nerve neuromas, 251
See Livingston, W. K., 170
Livingston, W. K., Davis, E. W., and Livingston, K. E. "Delayed recovery" in peripheral nerve lesions caused by high velocity projectile wounding, 170
Lyons, W. R. See Spurling, R. G., 79

McMillen, J. H. See Butler, E. G., 358
Magoun, H. W. See Groat, R. A., 26
Malone, P. D. See Richter, C. P., 550
Meninges: See also Intracranial tumors
anterior sacral meningocele, 535
dural closure with pedicled graft in brain wounds, 384
Meningitis
primary chronic coccidioidal, 269
serous, 498
Mount, L. A. The lateral position for operations in the cerebellopontine angle, 460

Nerves, peripheral
charts for lesions of, 550
"delayed recovery" in lesions caused by high velocity projectile wounding, 170
early nerve and bone repair in war wounds, 510
electrical skin resistance in lesions of, 261
fibrin film and clot in end-to-end union of, 102
improved clinical dermohmmeter, 257
injury of, in fractures and dislocations of long bones, 202
nerve grafts: importance of blood supply, 49
nerve grafts, whole fresh homogenous, failure of, in man, 79
neuromas, role of, in phantom limb syndrome, 251
regeneration and neuroma formation, prevention of, by caps of synthetic resin, 507
tantalum, new uses of, in nerve suture, control of neuroma formation, and prevention of regeneration after thoracic sympathectomy, 402
Neurological surgery: See also Instruments
carotid cerebral circulation, control of, during operation, 241
cerebellopontine operations, lateral position for, 460
Clovis Vincent, neurosurgeon and patriot, 530
forward neurosurgery in Italy, 332
frontal craniotomy, new position for, 546
gelatin sponge, absorbable, for use in hemostasis, 435
hemostasis in, 414, 435

Otenasek, F. J., and Chambers, J. W. Fulminating gas gangrene of the brain: report of a case in a civilian, 539

Pantopaque myelography: results, comparison of contrast media, and spinal fluid reaction, 220
Parker, J. M. See Schwartz, H. G., 510
Peacher, W. G. See Robertson, R. C. L., 281
——, and Robertson, R. C. L. Pantopaque myelography: results, comparison of contrast media, and spinal fluid reaction, 220
Penicillin therapy, in brain abscess, 456
Phantom limb syndrome, role of major peripheral nerve neuromas in, 251
Pituitary: See Adenoma
Pneumatocele, extradural, following tantalum cranioplasty, 524
Powell, L. D. See Brown, M. H., 535
Prentice, H. R. See Light, R. U., 435
